DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 46-90 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The newly submitted claims are directed to manipulating a digital image not with metadata, but by defining a personal template (claims 46-54), defining parameters including annotations inserted in the image and modifying parameters without inserting the annotation in the image itself (claims 55-65), defining parameters including describing a border to be applied around an image and modifying the parameters without applying the border to the image itself (claims 66-84), and computer program product to define manipulation to be applied to an image and modifying the parameters without applying the border to the image itself (claims 85-90). The newly submitted claims are storing the personal template on the local client computer and the remote server, whereas the original filed claims were synchronizing the local client and remote server with metadata and storing metadata about the manipulations stored at either the local client computer or remote server (original filed claim 34).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 46-90 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
